

# Youth Archery Program

## Why Archery?

**Children have FUN doing archery.** Additionally, archery has proven to increase attention, self-confidence, self-control, listening skills, and ability to follow directions.

Archery is a sport where children can experience complete acceptance, feel safe, and receive reward and recognition. Archery is not only a life-long skill, but a wholesome activity which can be enjoyed by anyone.

Many families are discovering archery as a quality way to spend time together.
